Compared with installed models, portable air conditioners have the advantage that they can be moved from one room to another in the home or be transported from one building to another. Hot air from the room is passed through a coil cooled by refrigerant gas. Excess heat and moisture are removed before the air is re emitted into the room. In

single duct models, a small part of this air is used to cool the refrigerant gas and then, when hot and damp, is discharged outside. In exclusive DeLonghi waterair models, the heat is removed from the room through the cooling effect of the water which is obviously much greater than air. This gives this air conditioner unbeatable cooling efficiency. U kunt hieronder aangeven waarom deze vraag ongepast is.

What to do What did I do Can you advise what course of action to take for this error please I am having the same issue.

I know it is Frost protection But it does not restart by itself I have to switch it off and on again to restart the compressor Did you figure out how to fix it Put a flat cookie sheet with short sides under the plug and pull it out. Water will come out and the caution sign will go off. The unit should now come on. I had the same trouble. The DeLonghi manual didn't address the error code I had, but I followed your instructions and WOW. I have COLD AIR again!!! I remove the plug and no water comes out. The error code keeps on flashing. Is there a reset sequence. Regards Johan Just tried it out yesterday. Problem is that the "water can" symbol keeps on coming up. Lets take a look at some of the top portable air conditioner ratings to figure out the best portable air conditioner for you and your familys needs. The unit can keep a room of up to 400 square feet cool and comfortable even in the hot summer months, letting you relax and enjoy a refreshing room any time of the year. Additionally, the Shinco comes with a programmable 24 hour cycle, which you can use to automatically turn off the machine while youre asleep or at work all of which helps you save electricity and lower the costs of running the machine. Reviewers praise its effectiveness, noting only one or two small issues with some sticking fans that are easily fixed. Buy from Amazon DeLonghi PAC W130E 418VOU7PibL.jpg It may look like a sleek gray robot from the future, but the DeLonghi PAC W130E pumps out 13000 BTUs of cooling power enough for very large rooms and very hot temperatures. With its useful side handles, intuitive display, and excellent programmable cycle, the DeLonghi PAC W130E packs an enormous amount of power into its frame, letting the user experience the comfort of a modern luxury home without having to invest in household air conditioning.

Though its pricier than the Shinco, that extra cost goes into an extra burst of power and cooling capability for your home, which will be worth the difference. Its Whisper Cool name comes from its special Whisper Cool design, which creates less noise than other similar portable air conditioners a

fact that many reviews mention as a particularly useful feature. Powerful and quiet, this DeLonghi is an excellent place to start looking for your own portable air conditioner. Though the features it offers number slightly less and the space it cools is slightly less, the reviewers tout the Honeywell as being an excellent value and worthwhile purchase. Its also slightly more expensive and comes in a sleek black finish instead of the white. Its an excellent step up from the last Honeywell while still being in the budget range of portable air conditioner units. Buy from Amazon Whynter ARC14S 310IbB1EruL.jpg The Whynter bills itself as a more ecofriendly portable air conditioner, offering 14,000 BTUs of cooling power while taking in less electricity than other models tend to. At right around the same price as the last Honeywell, its a worthwhile competitor and peer to the budget model, creating a similar amount of cooling effect while advertising itself as more environmentally friendly. While covering a smaller area and providing less cooling power than the other machines listed, its a more environmentally friendly solution and may be perfect for you if you dont have large spaces to cool. This unit is a highly efficient and budgetfriendly alternative to previous models, all while taking up less floor space than the others. Buy from Amazon Koldfront PAC801W 31AQd4ohnpL.jpg The Koldfront is another economicallyminded portable air conditioning unit with a low entry price and a very solid 8,000 BTUs of power. Buy from Amazon Shinco 10,000 BTU 31yfE3TJ9nL.

jpg Another small portable air conditioning unit on wheels, this Shinco offers 10,000 BTUs of cooling power and easily portability for a relatively low price. Buy from Amazon Which is the best portable air conditioner for you. It depends on your budget, room size, and portability needs focus on how much space you have to cool the more space, the more BTUs youll need! as well as how portable you need the machine to be consider the benefits of wheels. Do your research and plan your pricing and youll be very happy with the portable air conditioner you pick out.
